When we study the history of the progress of all the when we study the history of the progress of all the people of Florida, including their spiritual and material accomplishments, we come to see that men have been free to think, to worship, to express themselves at the ballot box, in that exact ratio has civilization advanced.

receive to think, to worship, to express themselves at the hallot box, in that exact ratio has scivilization advanced, and the people made progress.

We are in the mists of the second primary to select our next governor. The people should be on guard, and instead of applauding the candidate who stirred up so much filth, and paraded it before the voters of the State in the first primary, we should rally to the support of the candidate who conducted a clean campaign and expressed the highest regard for the "nine excellent candidates" who were eliminated.

We believe the people of Polk county and Florida will be the progress of the candidates of the county and planning of a man of Whitehair's callint discussion and planning of a man of Whitehair's callint discussion and planning of a man of Whitehair's callint and adequate help for old people of the citrus industry; and adequate help for old people of this state. He still believes in a United Florida.

Considering the fact that approximately 360,000 voters cast ballots for the ten candidates—other than his opponent—Whitehair said over radio Monday night this is a "clear cut and conclusive indication that the people of Florida want a progressive and business-like government in Tallahasses—a government in Tallahasses—a government in Tallahasses—a government in Tallahasses—the than the vested inter-constitution of the progressive and business-like government in Tallahasses—a government in Tallahasses—ballots for the same of human beings—rather than the vested inter-constitution of the progressive and business like in terms of human beings—rather than the vested inter-constitution of the progressive and business like in terms of human beings—rather than the vested inter-constitution of the progressive and business like in the people of Florida want a progressive and business like in the people of Florida want a progressive and business like in the people of Florida want a progressive and business like in the people of Florida want a progressive and business like in th

What is YOUR Idea of a GOOD GOVERNOR The question of selecting your candidate for governor is a very serious one. A good governor can mean a lot to you in lower taxes, better business

taxes, better business conditions and in the general advancement and prosperity of Florida. But a governor who is not in sympathy with the needs and rights of the people would do ione of these things and might take away some of your rights and privileges as a citizen of Florida. THE FORD WAY OF DOING BUSINESS

Henry Ford and Edsel Ford keep daily per-

with his staff, Henry

Ford often says: "Go

represent the public."

The Ford Motor Company was founded by a working-man for working-men. Its present officers began as employees of the Company. It was the first company to pay a minimum wage, beginning in 1914, at the then astounding figure of 55 a day. That was double the presailing wage of the time. The Ford minimum is now 56 a day for all most owner of the company a day for all employees engaged in pro-duction work. And from that, the wages rise to \$10.80 a day, with the average wage \$7.25, exclusive of salaried employees.

The Ford Motor Company was the first large company to establish the 8-hour day—also in 1914. And the 40-hour week was inaugurated by the Ford Motor Company in 1926, years before any such laws existed.

The Ford Motor Company employs men with-out regard to race, creed

or color. It is common knowledge that working conditions in the Ford shops are the best that science and constant care can make them. A square deal, a just wage and stabilized employment for a large proportion of our employees—and as fully stabi-lized for all as conditions will permit enable our men to retain their personal

In consequence of these policies the Ford Motor Company has one of the finest bodies of employees in the world. The larger proportion are mature men of long

service with the Company-sober, decent family men. Hundreds of them have been with the Company for more than 25 years — thousands for more than 15 years. Their health record, home ownership and citizenship records are good.

All this is reflected in Ford products, whether cars, trucks or tractors. The whether cars, trucks or tractors. The

Ford Motor Company was the first to make a motor car within the means of the average family-quitting the manufacture of what was then the largest selling model in the world to all the 30 years since that

time has been the average American family — for which it has consistently provided car facilities which formerly only the wealthy could buy.

It is the policy of the Ford Motor Com-pany to share the benefits of advanced methods and management with workers and public alike. Increased wages and employment over a period of many years have resulted in

I've learned something. It pays to buy Sinclair Opaline or Sinclair Pennsylvania Motor Oil. These oils last so long they save you money.

Sinclair Opaline and Sinclair Pennsylvania Motor Oils last longer because they're dewaxed and de-jelled by an extra refining process. You don't have to add oil so often between drains.
